

MODEL: ARMADA F

48V-8.0HP

Steering Wheel Series

Brushless Motor With Gear Box

Stepless Speed F/R
Included!
MAX 48V DC / 200A
Magnetic Kill Switch Included

SPECIFICATIONS

Shaft Power:
8HP

Comparable petrol outboards (thrust):

10HP
Peak Thrust in Lbs:
250Lbs

Max Voltage:
DC 48V

Power - Max:
4320W

Amp - Max:
90A

Depth Adjustment:
Not applicable

Prop Type:
3blade prop / 11.8inch dia

Prop Speed at Full Power:
Max. 1050 rpm underwater

Battery Type Required:
4x120AH Deep Cycle

Steering:
360 degree control

Decibel Level (db):
75db

Weight (N.W.):
27.3kg

Shaft Type:
Cast Aluminium

Shaft Length:
540/670mm

Colour:
Black

Max Boat Length (Suggestion):
9m

Included! **STEPLESS SPEED CONTROLLER**
Digitally controlled step-less forward and reverse speed. Magnetic kill switch is included.

MOTOR TILTING
Offers 4 levels of tilting position with 3 angles additional option.

Not Included! **STEERING WHEEL CONTROL**
An additional steering wheel unit is required. The steering angle: from -45° to +45°.

BATTERY METER
Shows voltage of battery all the time.

WATER COOLED
Water cooling system operates when moving forward.

Actual model may vary from image!

The Armada F series are equipped with efficient 48V brushless motors providing powerful propulsion for a wide range of boats operating in various waterways. They offer flexible step-less speed adjustment and a safety lanyard offer an added degree of safety. These motors can easily be tilted in and out of the water so you can motor in almost any water level. The Armada F models also features a digital LED battery level indicator. An additional steering wheel unit is required. Suitable for both salt and fresh water use.
