The Protruar is equipped with an innovative and powerful 110 lbs thrust from a 12V brushless motor, providing excellent propulsion for a wide range of boats and waterways. Equipped with step-less adjustable speed control and a magnetic safety lanyard. This motor can easily be tilted in and out of the water and the trim height is adjustable by way of a quick lock mechanism, so you can motor in almost any level water. It features an LED battery level indicator, and is suitable for both salt and fresh water use.
